Job Description

Overview

This leader will drive AI fluency and engagement across the company. This includes creating AI awareness, producing internal and external communications about the firm's AI activities, developing an enterprise-wide AI learning curriculum and education program, and developing a dynamic AI Community of Practice to drive engagement, connection, and culture. This leader will partner with HR Learning and Development, Corporate Communications, Business Lines, and others to deliver jointly on these goals.

Responsibilities

- Develop and execute a comprehensive AI fluency and engagement strategy to enhance understanding and adoption of AI across the enterprise.
- Partner with HR Learning & Development to design and implement an AI learning curriculum that builds foundational, role-based, and advanced AI capabilities.
- Lead creation of AI awareness and education campaigns, including events, workshops, and digital learning experiences that inspire participation and confidence in AI.
