Thanks for your interest in Success Academy! Running the largest, fastest-growing, and highest-performing network of public charter schools in New York City takes a village - families, children, teachers, staff and faculty, advocates, and supporters alike. We would love to welcome you to our community! We work tirelessly every day to ensure each child in NYC has access to a fun, rigorous, whole-child education regardless of zip code or economic status. When you join SA, you play a part in giving every student who walks through the doors of one of our 57 schools in NYC a fair shot at reaching his or her potential.

As the fastest-growing, highest-performing charter school network in New York State, Success Academy is reimagining K-12 public education. Nationally recognized for our innovative, whole-child school model and outstanding academic results, Success Academy educators are empowering children from all backgrounds with the knowledge, skills, and

self-belief to succeed in college and in life. We now need a results-driven Head, AI Enablement to join our Technology team.

## Department

The Technology Division at Success Academy is the chief provider of technology infrastructure, application services, security, analytics, and support. The Division partners with teams across the organization to equip students, teachers, leaders, and staff with the innovative technology tools and know-how necessary to achieve academic and operational excellence.

We are seeking a Leader, AI Enablement to spearhead AI-driven initiatives in a lean, high-impact team. This role is essential in bridging the gap between school system needs and AI solutions, ensuring the successful evaluation, implementation, and deployment of AI technologies.

The ideal candidate has a strong technical foundation, understands the AI/ML ecosystem, and can evaluate AI tools across AWS, GCP, and open-source platforms. Additionally, they should be an exceptional communicator and strategic consultant, capable of translating AI's potential into real-world applications for non-technical stakeholders.

## Requirements

- Bachelor's or Master's degree in Information Technology, Computer Science, or a related field.
- 8+ years of experience in AI product management, AI strategy, or technical consulting.
- Strong understanding of AI/ML fundamentals, including NLP, LLMs, and predictive analytics.
- Proven ability to evaluate and select AI tools while considering feasibility, cost, and ethical implications.
- Exceptional communication skills—able to distill complex AI concepts into simple, actionable insights.
- Experience working with education technology (EdTech), school systems, or public sector organizations is a plus

## Responsibilities

- Define and execute an AI roadmap that aligns with the education sector's needs.
- Work with all functions to identify high value opportunities to use AI
- Identify opportunities where AI/ML can enhance student learning, administrative efficiency, and decision-making.
- Own the end-to-end AI product lifecycle, from problem identification to solution deployment.
- Research, assess, and integrate existing AI tools that fit the organization's needs.
- Balance build vs. buy decisions and ensure the adoption of scalable, ethical AI solutions.
- Research, assess, and integrate existing AI/ML tools, balancing build vs. buy decisions.
- Strong understanding of Google Cloud AI tools (Vertex AI, AutoML, BigQuery ML, Document AI, and Generative AI APIs).
- Knowledge of open-source AI/ML frameworks (TensorFlow, PyTorch, LangChain, Hugging Face, Llamaindex).
- Ensure responsible AI use, bias mitigation, and compliance with data privacy laws (FERPA, GDPR, etc.).
- Act as a trusted advisor to executives, school administrators, and non-technical stakeholders.
- Present AI concepts, project updates, and business impacts in a clear and compelling manner.
- Translate technical AI capabilities into practical use cases that drive adoption.
- Work cross-functionally with engineering, data science, and education experts to ensure AI solutions are user-centric.
- Advocate for AI literacy within the organization and help stakeholders understand its potential and limitations.
- Lead discussions on AI ethics, data privacy, and responsible AI use in education.

Exact compensation may vary based on skills and experience.

#### Compensation Range

\$200,000—\$250,000 USD

Success Academy Charter Schools is an equal opportunity employer and actively encourages applications from people of all backgrounds. Compensation is competitive and
