Job Description

Job Title: Teaching and Learning Expert - AI Tutor

Job Type: Part-time, contract

Location: Remote

About Us:
Our mission at micro1 is to match the most talented people in the world with their dream jobs. If you are looking to be at the forefront of AI innovation and work with some of the fastest growing companies in Silicon Valley, we invite you to apply for a role. By joining the micro1 community, your resume will become visible to top industry leaders, unlocking access to the best career opportunities on the market.

Job Summary:
Join our dynamic team as a Teaching and Learning Expert - AI Tutor and contribute to the advancement of GenAI models. Our goal is to equip AI with the capability to handle specialized questions and demonstrate complex reasoning skills. You will have the opportunity to work on innovative projects, pushing the boundaries of AI education and learning.

Key Responsibilities:
- Generate probing prompts that challenge AI models to think critically.
- Define comprehensive and robust scoring criteria to assess the AI's responses.
- Utilize domain-specific expertise to correct and enhance AI-generated answers.
- Collaborate with our team to develop cutting-edge AI tutoring strategies.
- Stay updated with the latest trends in pedagogical frameworks and AI technology.
- Create engaging and personalized educational content incorporating gamification and motivational techniques.
- Adapt quickly to new methods and switch seamlessly between tasks.
